

## Northern Challenge Series (MAIN)

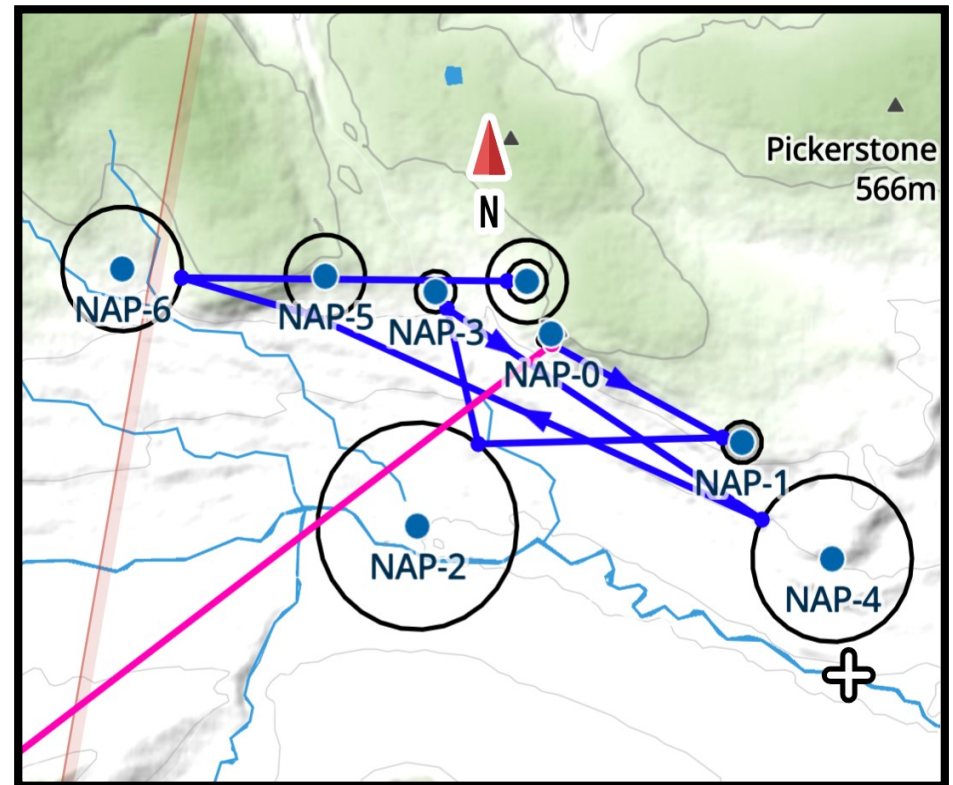

## CHANGES for 2024 and Task Diagrams

NCS 2023	NCS 2024	Task link	Notes
Blease NCT	Blease		Retainedf
Murton NCT	Nappa		New task/site for 2024
Coniston Cradle (26k)	Coniston		Retained
Far Whitestones (30k)	Far Whitestones		Retained
Windbank Cradle (29k)	Windbank		New task for 2024
Pendle DBLFAI (31k)	Pendle		New task for 2024
GRID Parlick (24k)	Parlick		New task for 2024
GRID Model Ridge (21k)	Model Ridge (M)		New task for 2024
Stags	Stags (M)		New task for 2024
Whernside	Whernside		Retained
Clough	Brigsteer		New task/site for 2024
Dodd	Dodd		Retained
Tailbridge/Mallerstang	Wild Boar		New task/site for 2024
Cow Close	Longridge		New task/site for 2024

**Notes:** Any 2023 site highlighted in red has either been removed or in some cases a new, replacement task is used. New task links are shown. The 2024 site headers have been tidied up; only site named is now used. (M) indicates 'members only'.

ID 868 Blease 40.1k , optimised 28.2k SSE – SSW

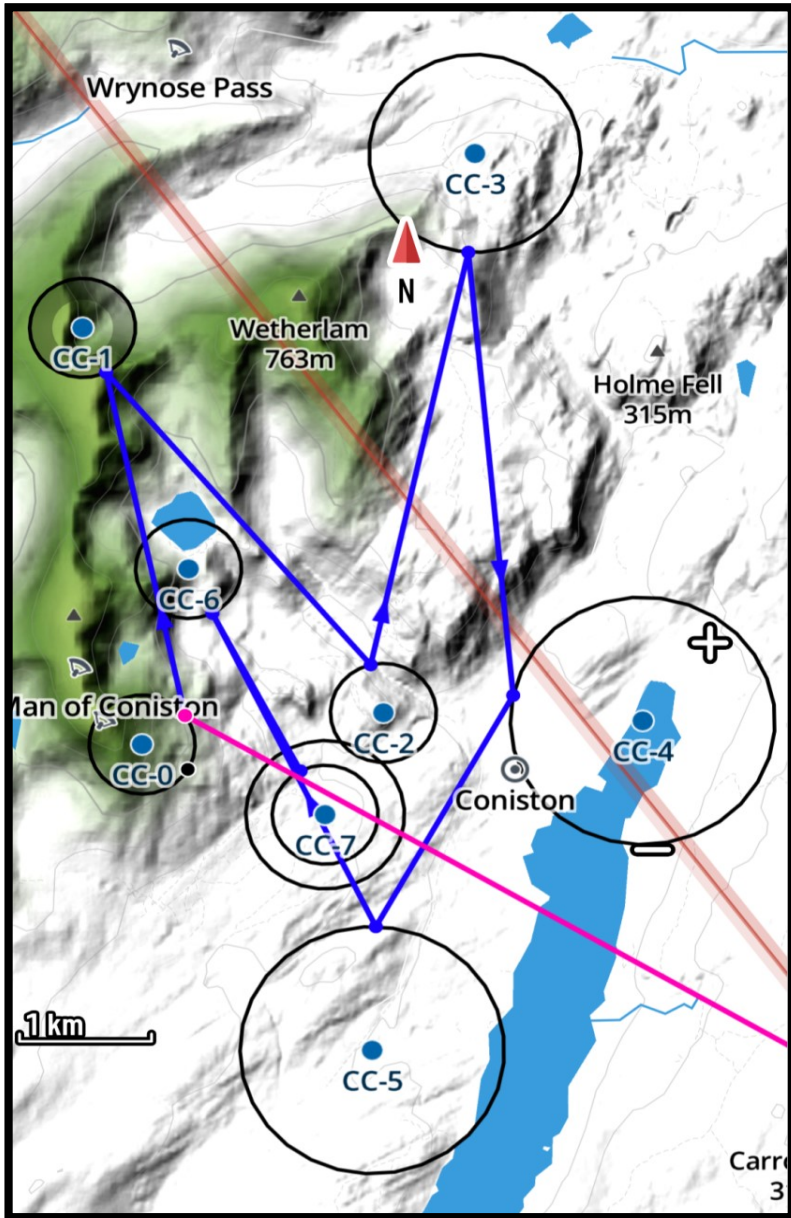

ID 1188 Nappa 24.4k, optimised 19k S – SW

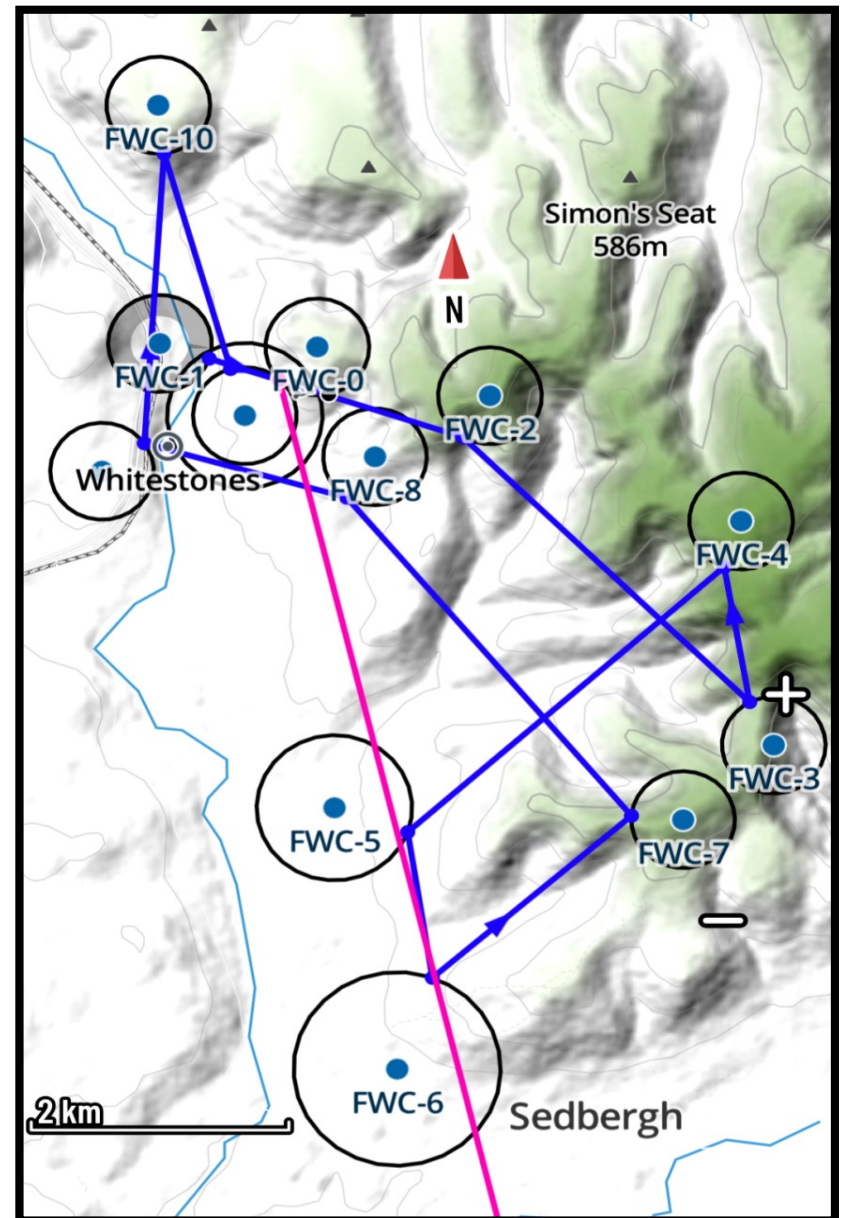

All the task diagrams have been gathered together for illustrative purposes and to provide an overview of the 2024 set.

A fairly major refresh has been done - the intention being to make tasks more accessible to CP level pilots and lower rated wings. If you're a hot-shot pilot on a two-liner C or D wing then the time points are more the focus (remember the distance /time factor is roughly 60/40 – but you need to reach goal for time points to be calculated in). A number of new sites have come into play to encourage pilots to explore a little; some have also been removed as they didn't see much traffic. There are now no GRID challenges. All removed tasks and GRIDS can still be found – just not in the NCS set. For fuller information relating to the Rules and Aims you should refer to the appropriate PDF download.

The site/task links have been blanked out. This is because things are not yet finalised - small tweaks (or even the odd big one) may yet take place. They will go live on xcmapp after 1<sup>st</sup> Jan, ready for a 1<sup>st</sup> Feb start to the season.

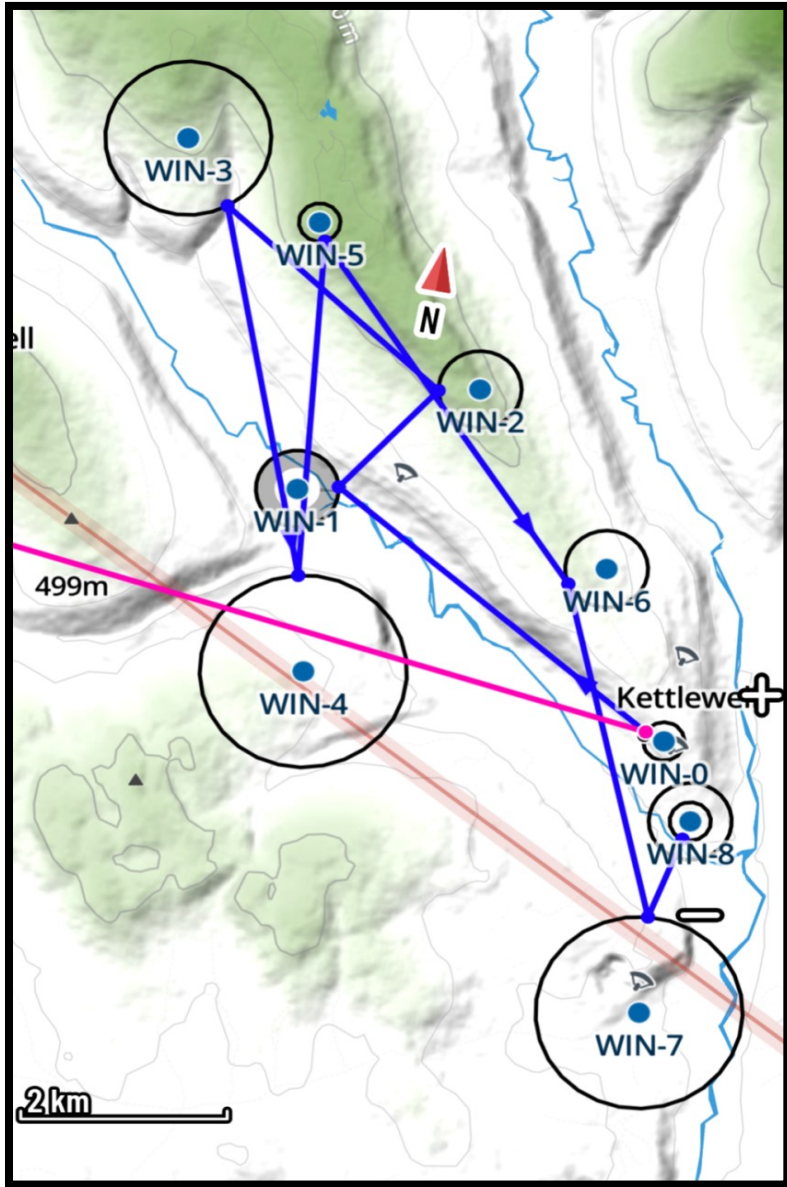

ID 686 Coniston 26/3k, optimised 19.1k ENE – SE

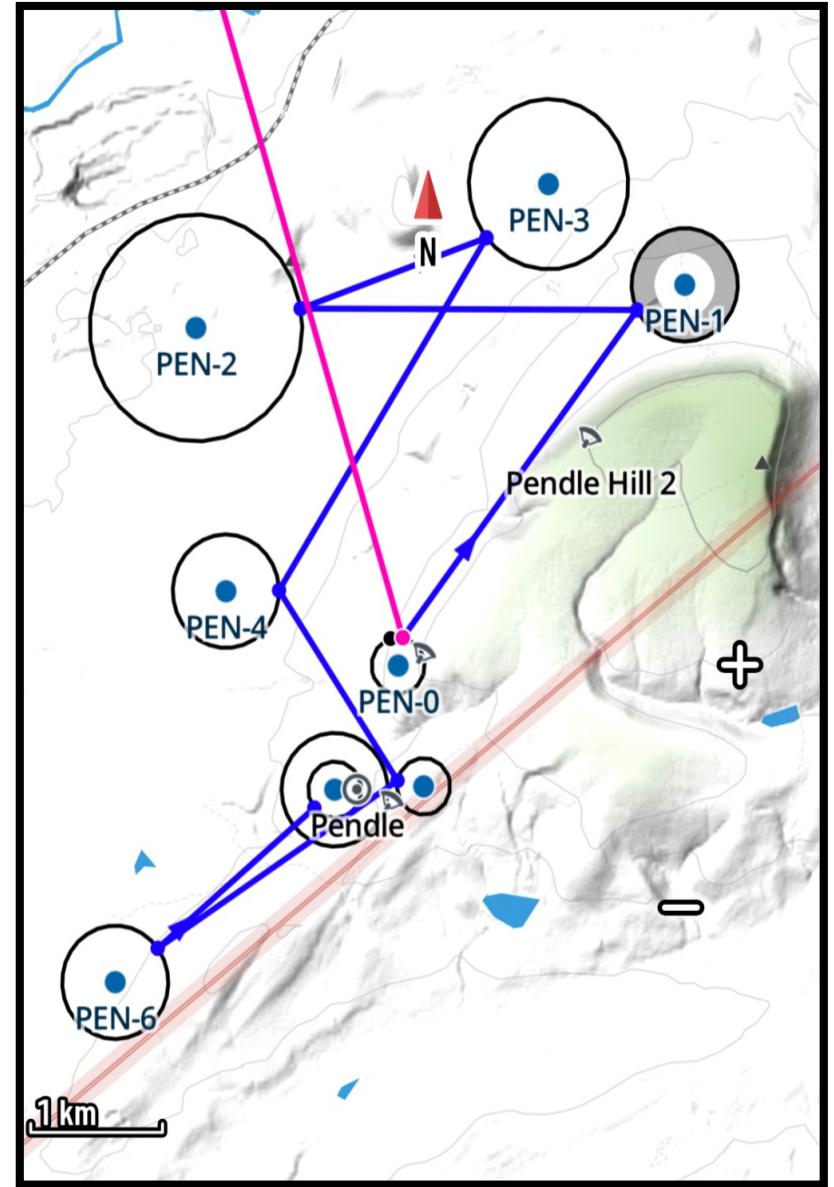

ID 706 Far Whistons 30.1k, optimised 22.6k SW - W

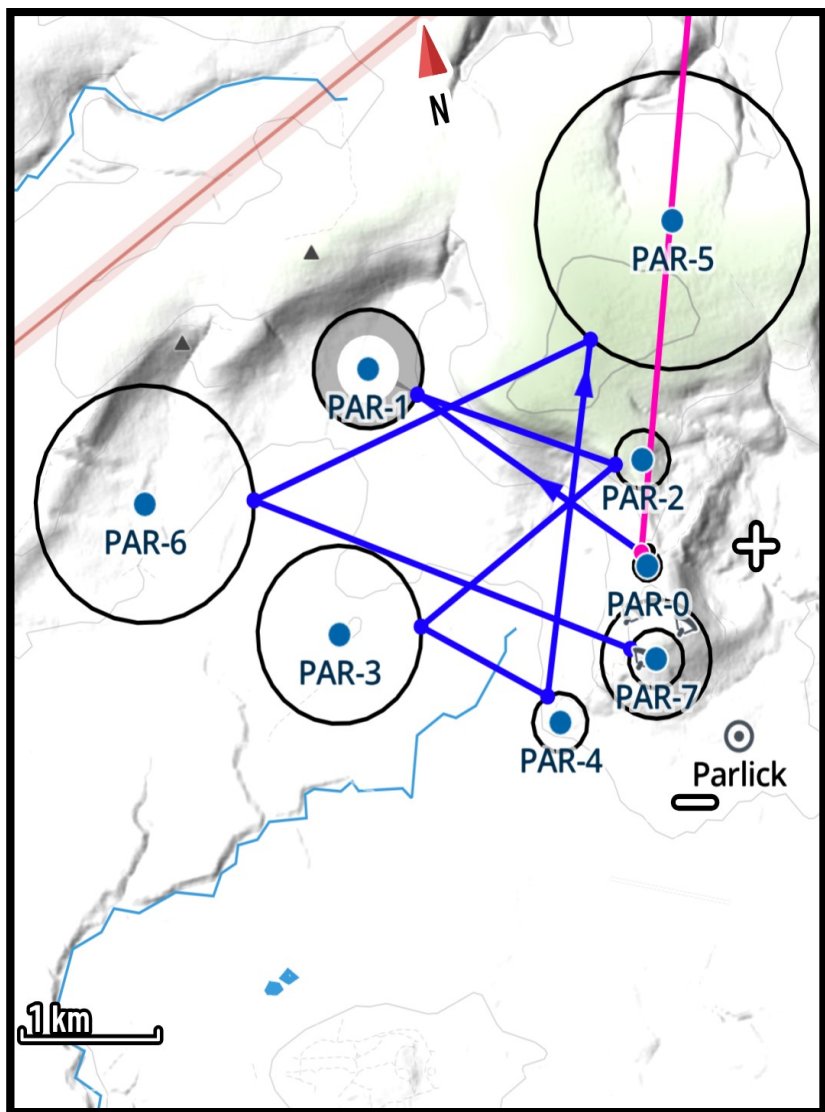

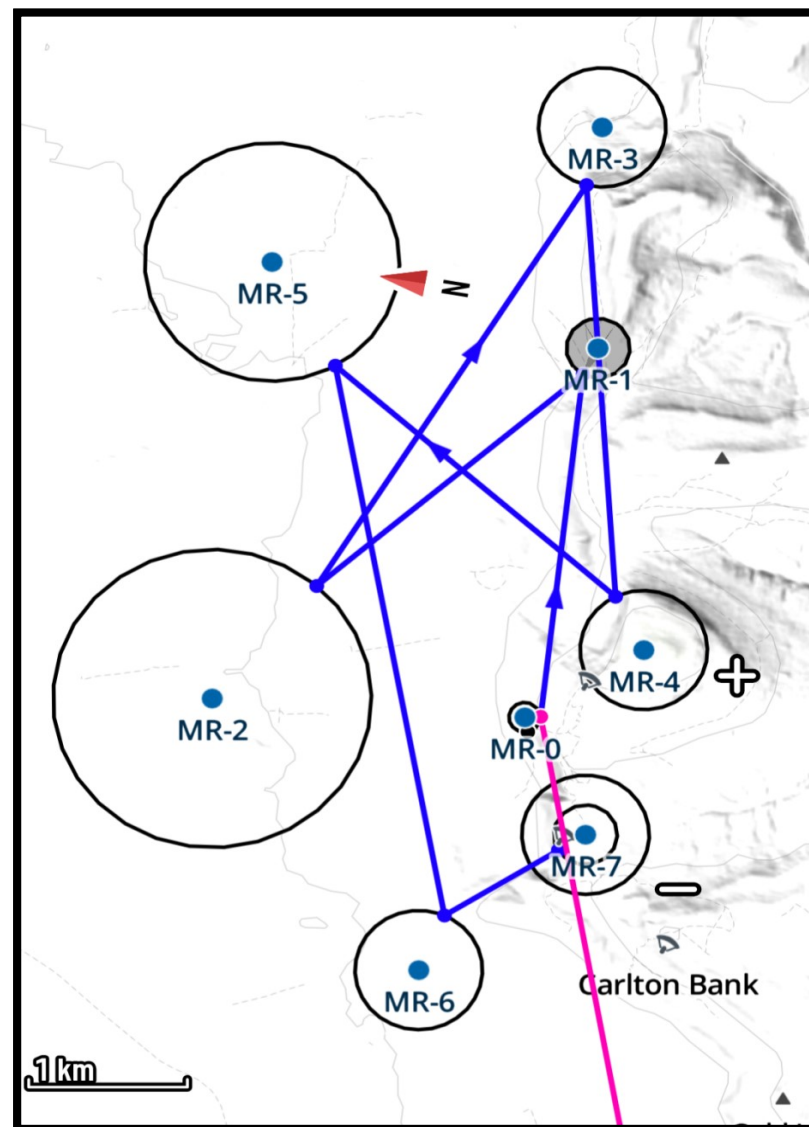

ID 1214 Windbank 31.9k, optimised 24.2k SSW – SW

ID 1210 Pendle 20.6k, optimised 15.1k NW - WNW

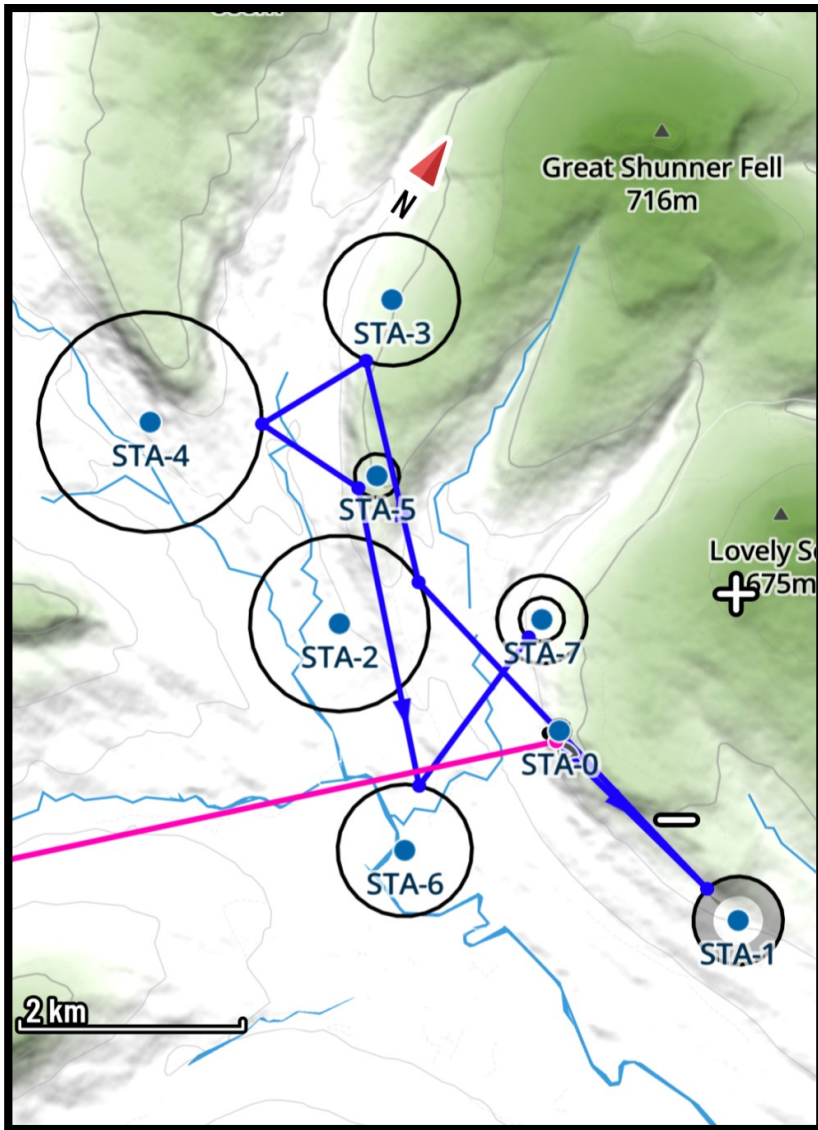

ID 1183 Parlick 20.4k, optimised 14.3k SSW to W

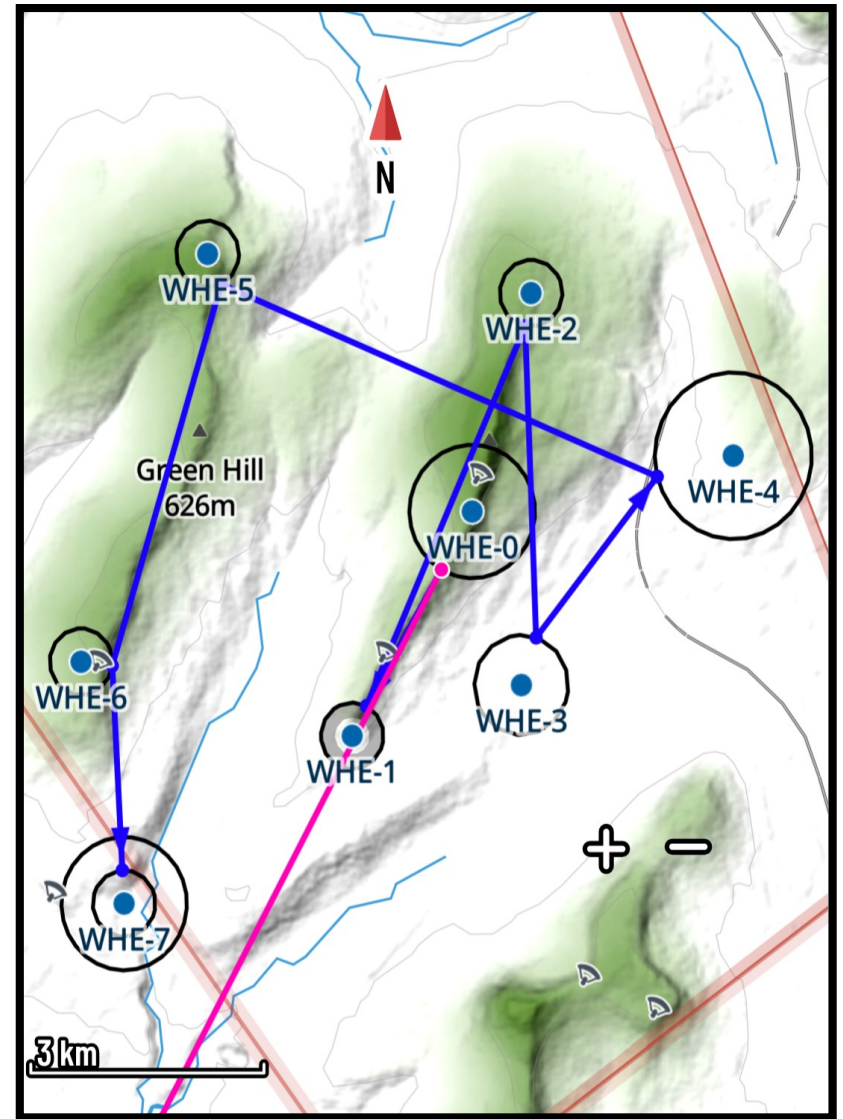

ID 1198 Model Ridge 23.7k, optimised 17.3k NNW – NNE

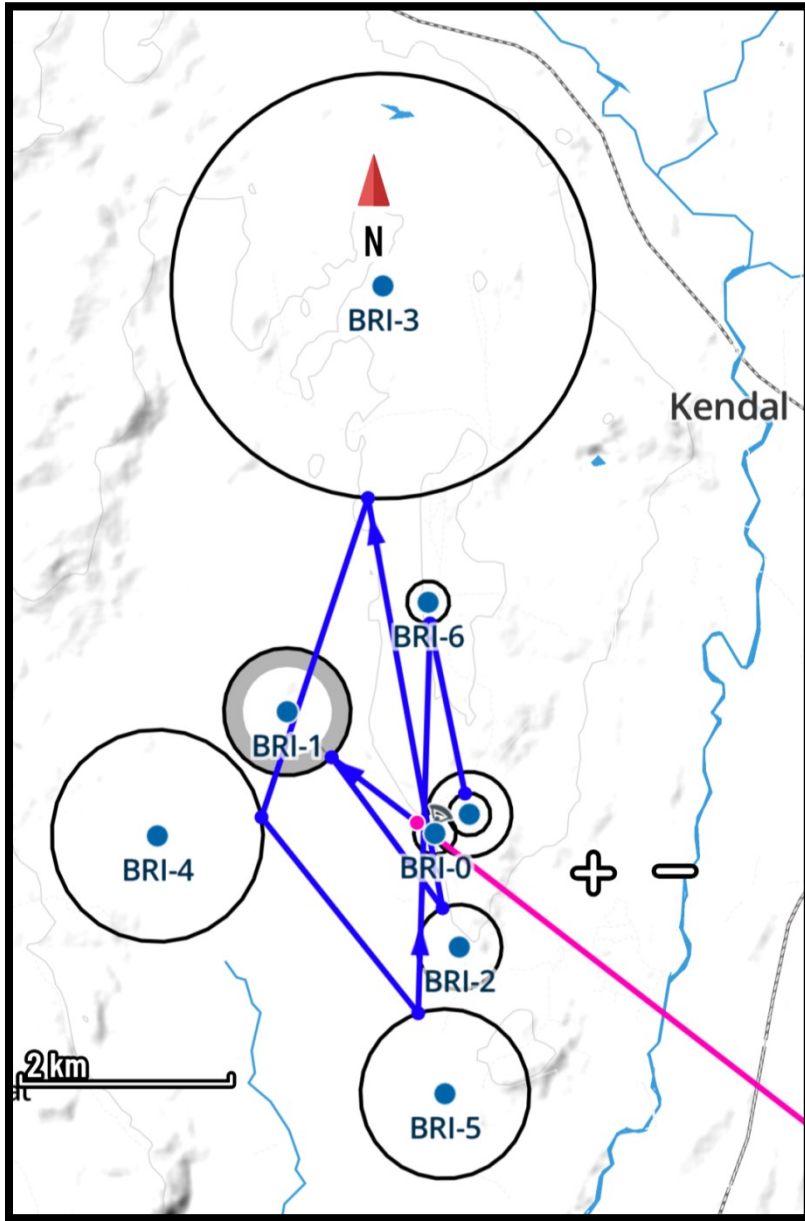

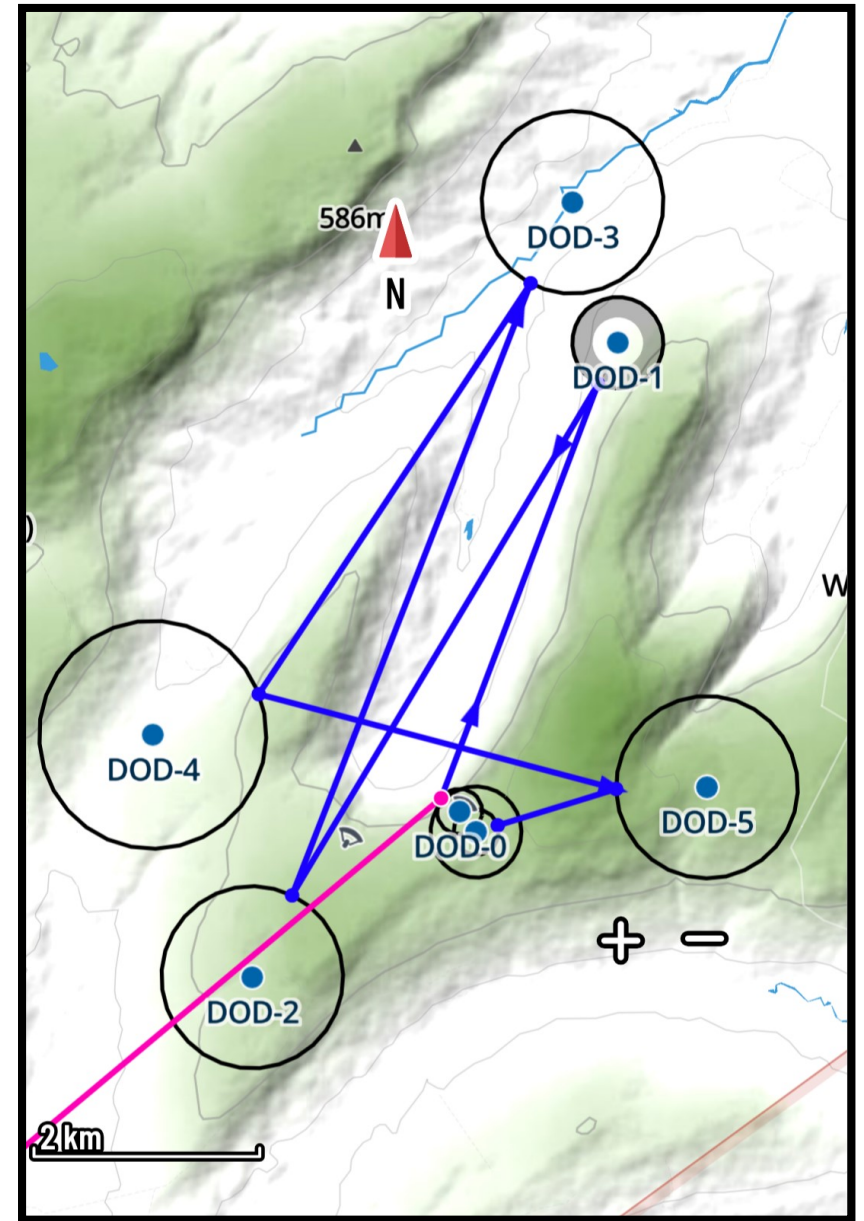

ID 1195 Stags 20.2k, optimised 14.3k SSE – SW

ID 992 Wherside 32.6k, optimised 26.3k E - SE

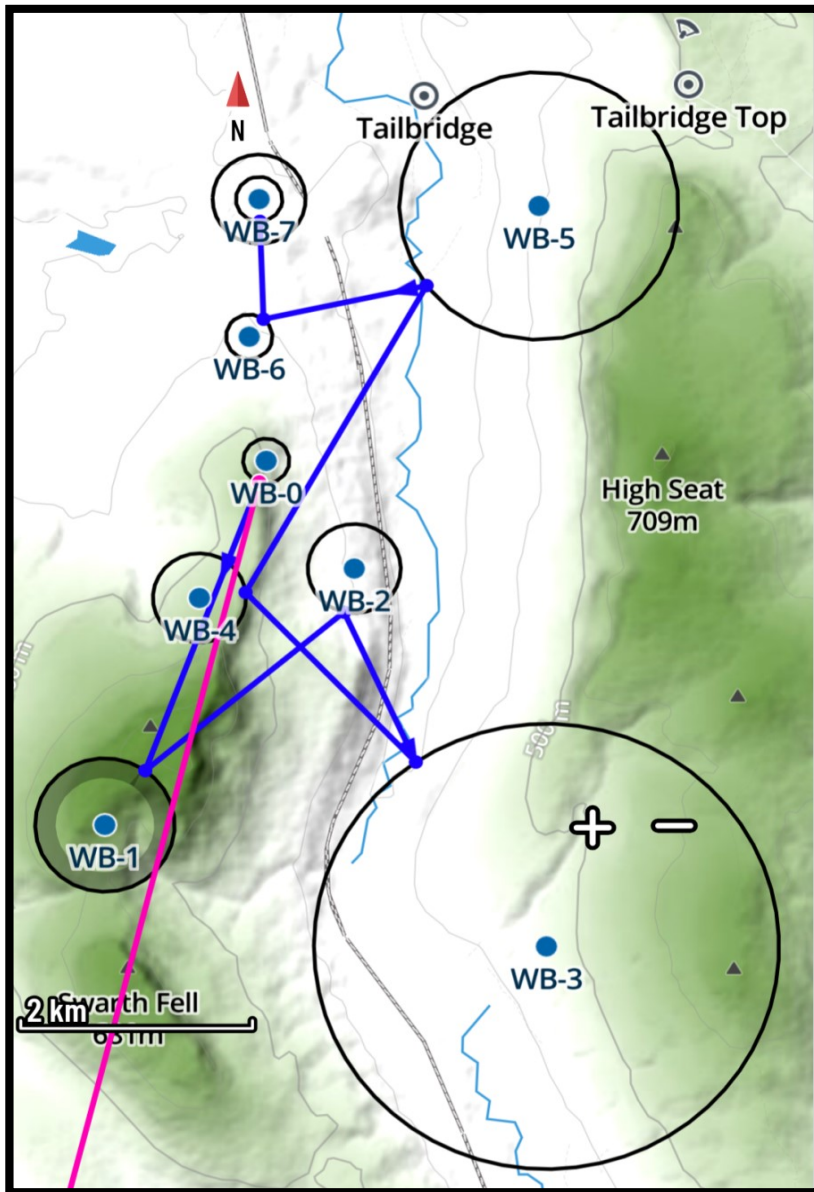

ID 1170 Brigsteer 26.7k, optimised 17.5k SW – W

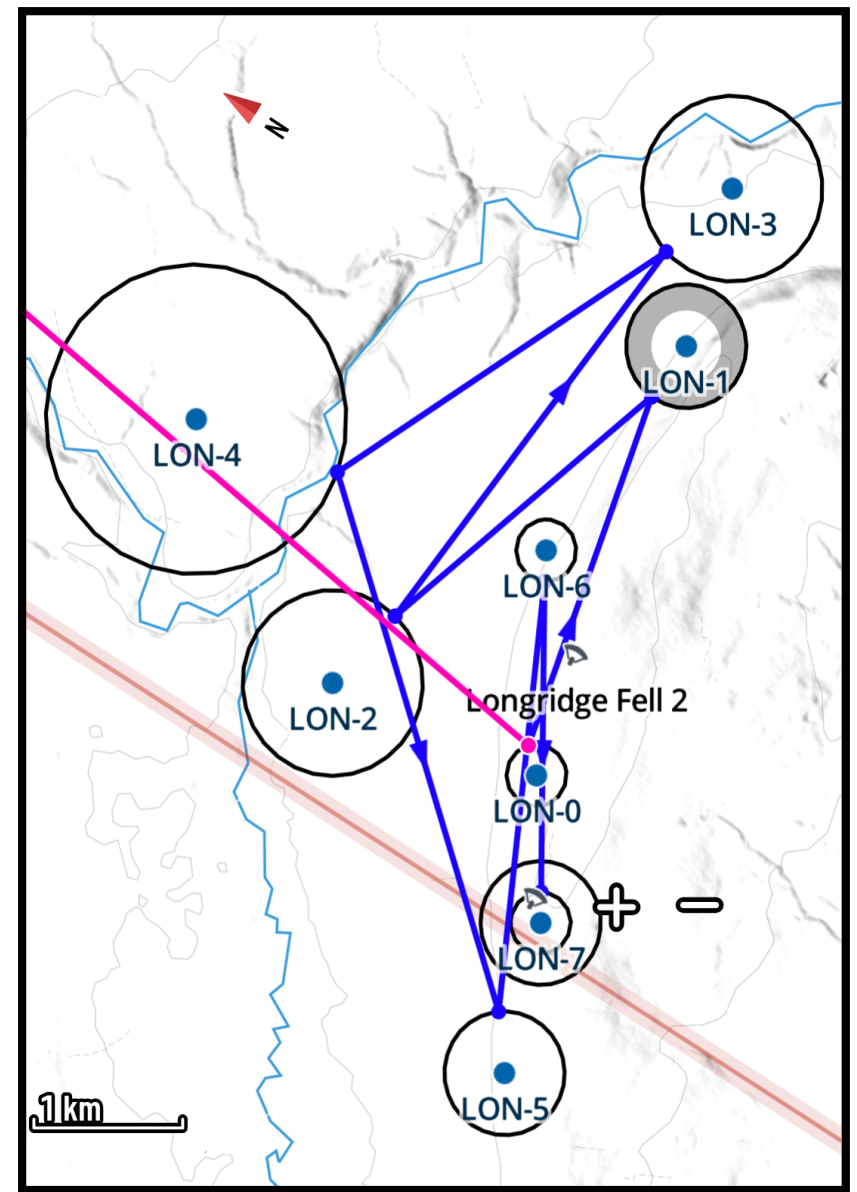

ID 1064 Dodd 31.1k, optimised 23.4k W - NW

ID 1207 Wild Boar 23.4k, optimised 14.3k ESE – ENE

ID 1215 Longridge 24.6k optimised 18.6k NNW - NNE
